

July 3, 2019

Dear Sequoia Shareholders and Clients:

For the second quarter of 2019, Sequoia Fund generated a total return of 5.51%<sup>1</sup>, net of fees, versus a 4.30% return for the Standard & Poor's 500 Index. The Fund generated a 20.99% total return year-to-date through June 30, 2019 versus a 18.54% return for the Index.

June 30 marks our three-year track record, a milestone for the investment committee. Since June 30, 2016, the first full quarter under committee management, Sequoia Fund generated a total return of 51.70%, net of fees, versus 48.89% for the S&P 500. This is a result with which we are pleased, but not satisfied. Outperformance is our expectation, and our definition of a meaningful long-term investment horizon stretches far beyond three years. So while we are encouraged by what we have accomplished over the last three years, we have much left to prove. Meeting the very high standard of performance that the Fund has achieved over what will soon be fifty years is a considerable challenge, but one we relish. Having invested liberally in our team and research resources over the past few years, we think we are well-equipped to tackle it and thus look forward to the Fund's next several years with optimism.

In the meantime, we want to thank the hundreds of shareholders and clients who attended our 2019 annual investor day on Friday, May 17. For those who couldn't make it, we hope that the attached transcript serves as a useful mid-year update on our Firm, our holdings and our approach to investing. You can also find the slides referenced during our meeting on our website, [www.ruanecunniff.com](http://www.ruanecunniff.com). Mark your calendars: next year's annual meeting will take place on Friday, May 15, 2020.

We continue to acquire shares in a new investment that we will discuss once our purchases are complete. Otherwise there was no material activity during the quarter.

As ever, we are grateful for the continued support of our clients and shareholders.

Sincerely,

The Ruane Cunniff Investment Committee

\* It is the intention of Ruane, Cunniff & Goldfarb L.P. (the “Adviser”) to ensure the Fund does not pay in excess of 1.00% in Net Annual Fund Operating Expenses. This reimbursement is a provision of the Adviser's investment advisory contract with the Fund and the reimbursement will be in effect only so long as that investment advisory contract is in effect. For the year ended December 31, 2018, the Fund's annual operating expenses and investment advisory fee, net of such reimbursement, were 1.00% and 0.94%, respectively.

The Fund is non-diversified, meaning that it invests its assets in a smaller number of companies than many other funds. As a result, an investment in the Fund has the risk that changes in the value of a single security may have a significant effect, either negative or positive, on the Fund's net asset value per share.
